

Expendables

Handgards expendables offer added value and style for dishes and drinks. We offer a wide selection of wood options which create a unique upscale presentation for all your menu items. Our options offer an innovative and elegant way to spice up your hors d'oeuvres, appetizers, and beverages with a modern look that's sure to please.

Handgards® Wood Coffee Stirrers

Wood coffee stirrers are a quick and essential addition to any C-Store beverage station to help customers prepare their beverages to their liking. These beverage stirrers are a popular plastic spoon alternative. They are an investment which will serve operators and customers for a long time. Coffee stirrers are available unwrapped and paper-wrapped.

Handgards® Wood Toothpicks

With the addition of ready-to-eat foods in a convenience store setting, customer experiences can be enhanced with minor fine details. Offering wood toothpicks are a great addition to a ready-to-eat food counter. They can be used in food prep to hold prepared items together and customers will be appreciative while eating food products on the go.

Headwear

Our wide variety of headwear is available for your food prep area. Add further protection by using our entire line when full containment of hair is necessary and help prevent contaminating food items and keep your C-Store safe and sanitary.

Handgards® Hairnets

Proper food service safety guidelines require the use of hairnets, so it is a great practice for convenience stores offering prepared foods to also adapt. They will not only avoid hair contamination, but ensure customer satisfaction.

Apparel

Handgards Low-Density Poly Aprons help to reduce the possibility of cross contamination and the potential for transference of viruses and bacteria by clothing. Our entire line of aprons are recommended for all food prep and serving duties.

Valugards® Low-Density Poly Aprons

Low-Density Light Duty Embossed Poly Aprons protect uniforms and clothing and combined with proper hygiene practices and frequent changes, can help reduce the possibility of cross contamination and the potential transfer of harmful bacteria or viruses. Microbes can double in number quickly and harmful viruses can also spread quickly.

FOODSERVICE DISPOSABLES
FOR CONVENIENCE ON-THE-GO

FOODSERVICE DISPOSABLES FOR CONVENIENCE ON-THE-GO

The demand for prepared food in c-stores is growing and meeting made-to-order trends requires the right tools, from the gloves that prepare the meal, to the bag used to take food to-go. Handgards offers a wide variety of foodservice disposables for C-Stores prepared to take their food game to the next level with top-notch quality and labor saving solutions.

Foodservice Gloves

Food safety is a priority for every establishment, especially C-Stores trying to make a good impression on new customers. Handgards offers loose poly gloves for quick tasks and a hybrid glove for more detailed tasks.

QuickServe® Disposable Gloves

In the same way C-Stores offer quality and speed, our best quick dispensing polyethylene Quick Serve® Disposable Gloves are ready to work at all times. Our Quick Serve® gloves can be mounted near any workstation where a quick, loose fitting food service grade glove is needed, such as self-serve pastry stations, nachos or hot dog prep areas and cleanup stations. Available in clear and blue colors.

Valugards® Econo Poly Gloves

Convenience and value is important in a fast paced setting. When you need a quick on/off disposable glove, look no further than our Valugards® Polyethylene Disposable Gloves. They are loose fitting food grade gloves perfect near food stations such as salad prep areas, self-serve pastry stations, nachos or hot dog prep areas and cleanup stations. Available in 4/500 pack (2,000 gloves) and 10/500 pack (5,000 gloves).

Grip Gards® Stretch Hybrid Poly

Grip Gards® Stretch Hybrid Disposable Gloves are quality food grade gloves perfect for cold food handling in a fast pace setting. Their tight fit and embossed diamond pattern provides added grip when handling small or slippery items. They are great for salad prep, slicing, handling pastries and meat processing. Available in clear and blue colors.

Valugards® Vinyl Disposable Gloves

As convenience stores offer more freshly prepared and hot food items, having the right food grade glove is important. Tight-fitting and resilient ValuGards® Vinyl Gloves are great for medium use service applications such as chopping, slicing and handling hot foods. They're economical yet offer superior barrier protection and superb touch sensibility compared to loose fitting gloves.

Handgards® Reusable Gloves

Cleaning and resetting of a C-Store for the next day's operation is a daily task. For deep cleaning tasks where chemicals are involved, Handgards Yellow and Orange Heavy Duty Reusable Latex Gloves are a great fit. These 12 inch length household gloves with contoured fingers and palms offer great protection from cleaning chemicals when performing any cleaning task.

High Density Specialty Bags

Handgards offers a wide variety of specialty bags for to-go snacks and meals like hot dogs, pizzas, sandwiches, cookies and even corn on the cob. These bags are made in various special custom sizes and are available with or without print.

Tuffgards® Hot Dog Bags

Tuffgards® Hot Dog Disposable Bags provide a convenient way to protect hot dogs from contaminants during prep and transport. They are made of a High Density Polyethylene food grade film. These convenient top or side loading bags are available in a saddle pack for easy dispensing, they also have a flip-lock closure to protect foods and/or condiments securely. Hot Dog Disposable Bags are available with or without print.

Tuffgards® Deli Bags

High Density Food grade Deli Bags are available in a saddle pack and are a perfect addition to any convenience store deli offering. They can be used for sandwiches or any take-out items. These bags can withstand temperatures from -50°F and up to 220°F which means they can be used for overnight storage and reheating. They are perfect for sandwiches, dry meats, burritos and even condiments. Deli Bags are available with or without print.

Tuffgards® Food Sheets

High Density Food Sheets are great for an overall cleaner baking experience. They can be utilized in both hot or cold food preparation, such as dough separation and as an added protection against contaminants. They can withstand temperatures from -50°F up to 220°F, and are the solution for keeping oven pans available to cook more foods for the next shift. This sheet can also serve as a defensive barrier while preparing or tenderizing chicken.

High-Clarity Bags

Display your delicious impulse snacks with our High-Clarity Bags. Available with or without an adhesive seal, they are perfect for cookies, nuts and candies.

Tuffgards® High-Clarity Bags

High Clarity Bags are an exceptionally practical and elegant food storage solution to help encourage impulse buys of ready-to-eat foods. They are a brilliantly clear storage bag which protects foods from cross-contamination. They are perfect for dried fruits or nuts, chocolate covered strawberries, or fresh baked cookies. Bags can be decorated with an elegant ribbon or tie to fit any special theme or holiday.

Ovenable Bakery Sheet

For baking sides, veggies, pastas and pastries Handgards offer Ovenable Baking Sheets. Available in various sizes, these are perfect for cooking and making clean up quick and easy.

Pangards® Bakery Sheet

Baking ready-to-eat foods can create additional work when it comes to having to clean baked-on residue off of oven pans. Disposable Nylon Baking Sheets are great for an overall cleaner baking experience. They help preserve oven pans and avoid direct food-to-pan contact. They can withstand temperatures up to 400°F, and they offer a solution to minimize your labor cost.

Steam Pan Liners

Steam Pan Liners not only make warming and serving food easier, but they also increase food yield while providing a cleaner and safer cooking process overall. They cut down on cleaning and storage costs, as the bags can be pulled from the pan and with the enclosed twist ties, can safely be used as a storage container as well.

Pangards® Steam Pan Liners

Maintaining ready-to-eat foods within safe holding temperatures inside steam pans is vitally important. Disposable Steam Pan Liners feature a top opening which lays inside a steam pan and can withstand temperatures from -50°F and up to 220°F, which means they offer not only a solution for keeping ready-to-eat foods in perfect holding temperatures, but also provide a bag for overnight storage and reheating the next day. Available with twist ties.
